

Mobile Tablet/Chromebook Charging Cart LLTM30-B

Luxor's LLTM30-B charging cart is our best-selling modern tool used to charge, store, and transport your tablets and Chromebooks. Whether traveling from the library, down a hospital hallway, or through the corporate office, the durable non-marring casters and long-lasting tread help smoothly guide the charging station to its location. The cart's two 16-outlet 120V/15A vertical electric power strips enable ongoing battery life while also conserving space in storage. Upgrade your workspace with this multi-purpose charging station.

Features:

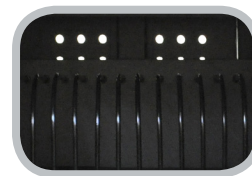

- Meets ANSI/BIFMA standards
- Charges up to 30 tablets and Chromebooks (15 per shelf)
- Four non-marring 4" casters, two with locking brakes, smoothly handle heavy loads
- Cable management for superior interior cord organization
- Rubber-coated dividers spaced 1" apart keep equipment organized and protected
- All steel construction and padded top surface
- Internal UL Listed power strips

Side cord wrap for convenience.

Rear access door of the LLTM30-B open to the power strips.

Coated dividers and non skid casters
