40" Mobile Presentation Station

WPS4 | WPS4E | WPS4C | WPS4CE

Whether you're in a classroom or a meeting room, the Luxor WPS4 40" Mobile Presentation Station provides a versatile solution for presenting and storing audio/visual components. This multipurpose presentation cart has four shelves set at differing heights and offers platforms that will hold a projector and laptop while providing plenty of space for a variety of AV equipment and accessories. The second shelf functions perfectly as a keyboard tray and adjusts between 32" and 40" high, accommodating multiple users. Four silent-roll 3" casters deliver total mobility, while two locking brakes keep the unit stable during presentations. An optional lockable cabinet can house IT equipment or office supplies; add an optional electric assembly and turn the WPS4C / WPS4CE into a self-contained presentation station.

Features:

- Sturdy steel frame with four flat shelves
- Second shelf adjusts between 32" and 40" high, accommodating multiple users
- Four silent roll 3" casters, two with locking brakes, offer total mobility
- Overall Dimensions: 18" W x 34.25" D x 40" H
- Optional locking cabinet with inner dimensions of 13.4" W x 13.3" D x 18.3" H
- Optional 3-outlet UL-Listed electric assembly with 15' cord
