

Modular Charging

Flexible Charging Solutions

Give your customers the power, store, and organize mobile devices like never before.

Introducing Luxor's Modular Charging System – a collection of unique, stackable charging cabinets that effortlessly scale to fit the needs of any business or organization. Perfect for warehouses, schools, medical facilities, or any environment that requires on-demand charging systems.

Designed with flexibility in mind, each modular charging cabinet can be placed on a desktop, mounted to a wall, or stacked together – making them the perfect solution for modern workspaces where device access requirements are ever-changing.

Ideal for:

- Businesses and organizations with shared devices amongst students / team members.
- Businesses and organizations that require flexibility with where and how to house their devices.
- Cost-sensitive organizations seeking the ability to increase or decrease device capacity as needed.
- Environments with frequent traffic that require higher device security.

Why Luxor's Modular Charging System?

Secure Locking Cabinets

Keeps customers' devices safe and secure.

Scalable, Stackable Design

Grows with your customers' device usage.

Integrated Cable Management

Ensures device cords stay tidy and organized.
