

LUXOR

Simple Enforcement for Phone-Free School Policies

Easy Setup. No Contracts. No Fees.

Unlike subscription-based systems, the CellGuard® Cell Phone Storage Cabinet is a one-time investment that schools own outright. Built for bell-to-bell phone policies, it fully separates students from their devices during the school day, helping schools reduce distractions, support consistent routines, and move forward without ongoing expenses or delays.

CellGuard®

Phone Storage Cabinet

Durable, high-capacity classroom storage solution that supports phone-free learning while keeping student devices secure, visible, and organized, shifting the responsibility of phone enforcement away from teachers so they can focus on instruction, not devices.

Key Features:

- Compact tabletop design fits desks, counters, and classroom storage areas.
- Numbered slots simplify phone collection, tracking, and return.
- Centralized storage creates a consistent device routine before instruction.
- Freestanding design moves where phone storage is needed most.
