

Pneumatic Adjustable Height Flip-Top Student Desk/Nesting Desk

STUDENT-P-TILT

Today's student desks must be flexible and adaptive to changing classroom environments. Specifically, they must accommodate sitting and standing, promote healthy movement, allow for fast reconfiguration of seating arrangements, and easily stow away when not in use.

Building on our proven line of classroom desks, Luxor's Pneumatic Adjustable Height Flip-Top Student Desk/Nesting Desk is perfect for active learning spaces. It offers all the kid-friendly features of our other top-selling student desks, then adds a tilting desktop. Set it flat for use as a typical student desk, tilt it to a lectern position for presentations, then set it straight up and down to nest with other desks for compact storage.

Specifications
